

Kikuyugrass From A to Z

Golf Industry Show
San Diego – February 5, 2019

Kikuyugrass Fast Facts

- Native to Kenya
- Listed on the Global Invasive Species Database
- Found in 22 countries
- Managed on golf courses in California and Mexico
- Very little published information on kikuyugrass management.

Goals for today:

- Share information on management programs. Learn from each other.
- Problems, challenges.
- What works.
- What doesn't work.

Workshop agenda:

- Challenges of managing kikuyugrass (Larry Stowell, Wendy Gelernter)
- Kikuyugrass management (Pat Gradoville, Fernando Varela)
- Breeding and improvement of kikuyugrass (Marta Pudzianowska)
- Panel discussion
- Review of the 2010 Kikuyugrass Management Survey
- Discussion: future direction of kikuyugrass management and research
- ***Active discussion! Please share information about your management programs and challenges.***
