

I have heard it said that  
equipment managers and  
superintendents are from  
different worlds.

I look at it a bit differently, I  
see it as superintendents and  
equipment managers are from  
the same world just different  
hemispheres of it.

In the end our  
goals will parallel  
one another and  
with good  
communication we  
can make a hole in  
one.

We perceive things in different ways, and the knowledge we can gain from one another's perception is invaluable.

▪ Don't be afraid to ask questions, and don't be afraid to disagree

Take the time to help the other understand what you are doing, why you are doing it, and listen to how it affects them and what they are doing
