

Low Input Maintenance & 19 years using the Bioject

Matthew Crowther, CGCS

Mink Meadows Golf Club

Martha's Vineyard, Massachusetts

Wayne Styles last course est. 1936

Single owner from 1936 – 1963. Only 9-holes completed of 18 hole routing plan. Mink Meadows Association formed in 1963 – comprised of 55 two-acre lots saving course from extinction. 1990's a master plan of renovations by Ron Prichard

2 years of conventional maintenance

1998 – 2010 inject Bioject **2011 – present spray Bioject**

Bioject® – Spotless® *Pseudomonas aureofaciens*

Used two machines to inject through irrigation. Ran a syringe cycle every night. Due to salt water intrusion issue started spraying. One machine has worked really well.

Boomless nozzle set up

Got Dollar Spot?

Clear line at approach to greens

We see more than Dollar Spot

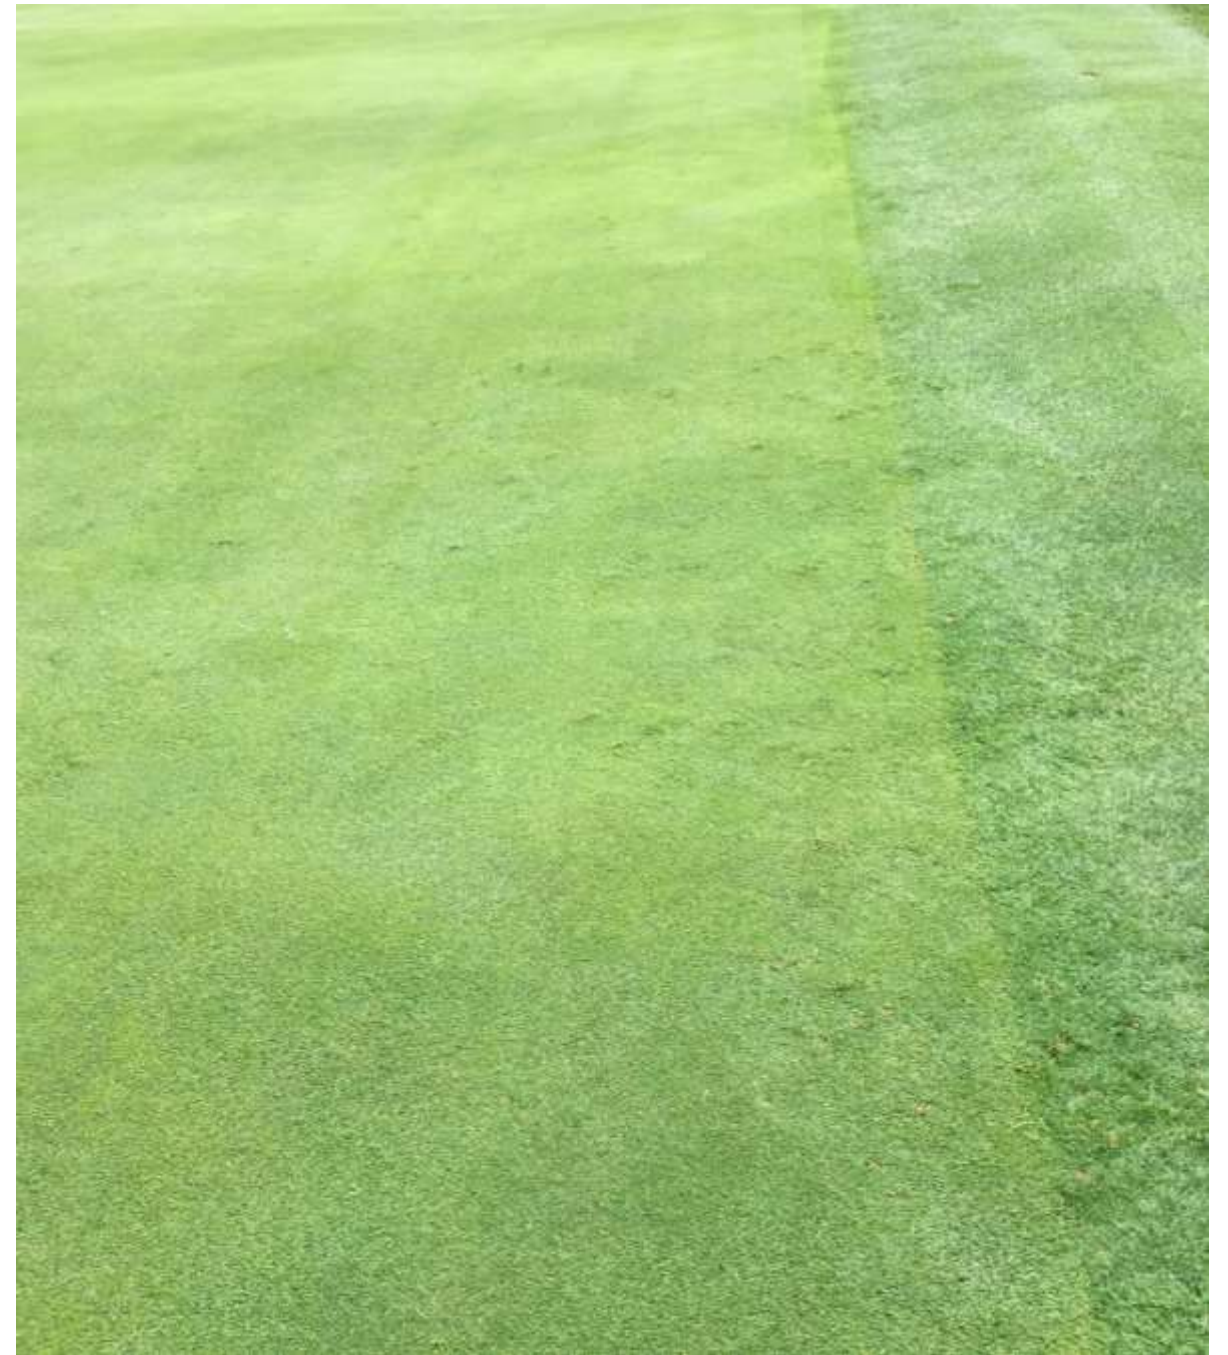

Foraging for grubs damage Crows and Skunks

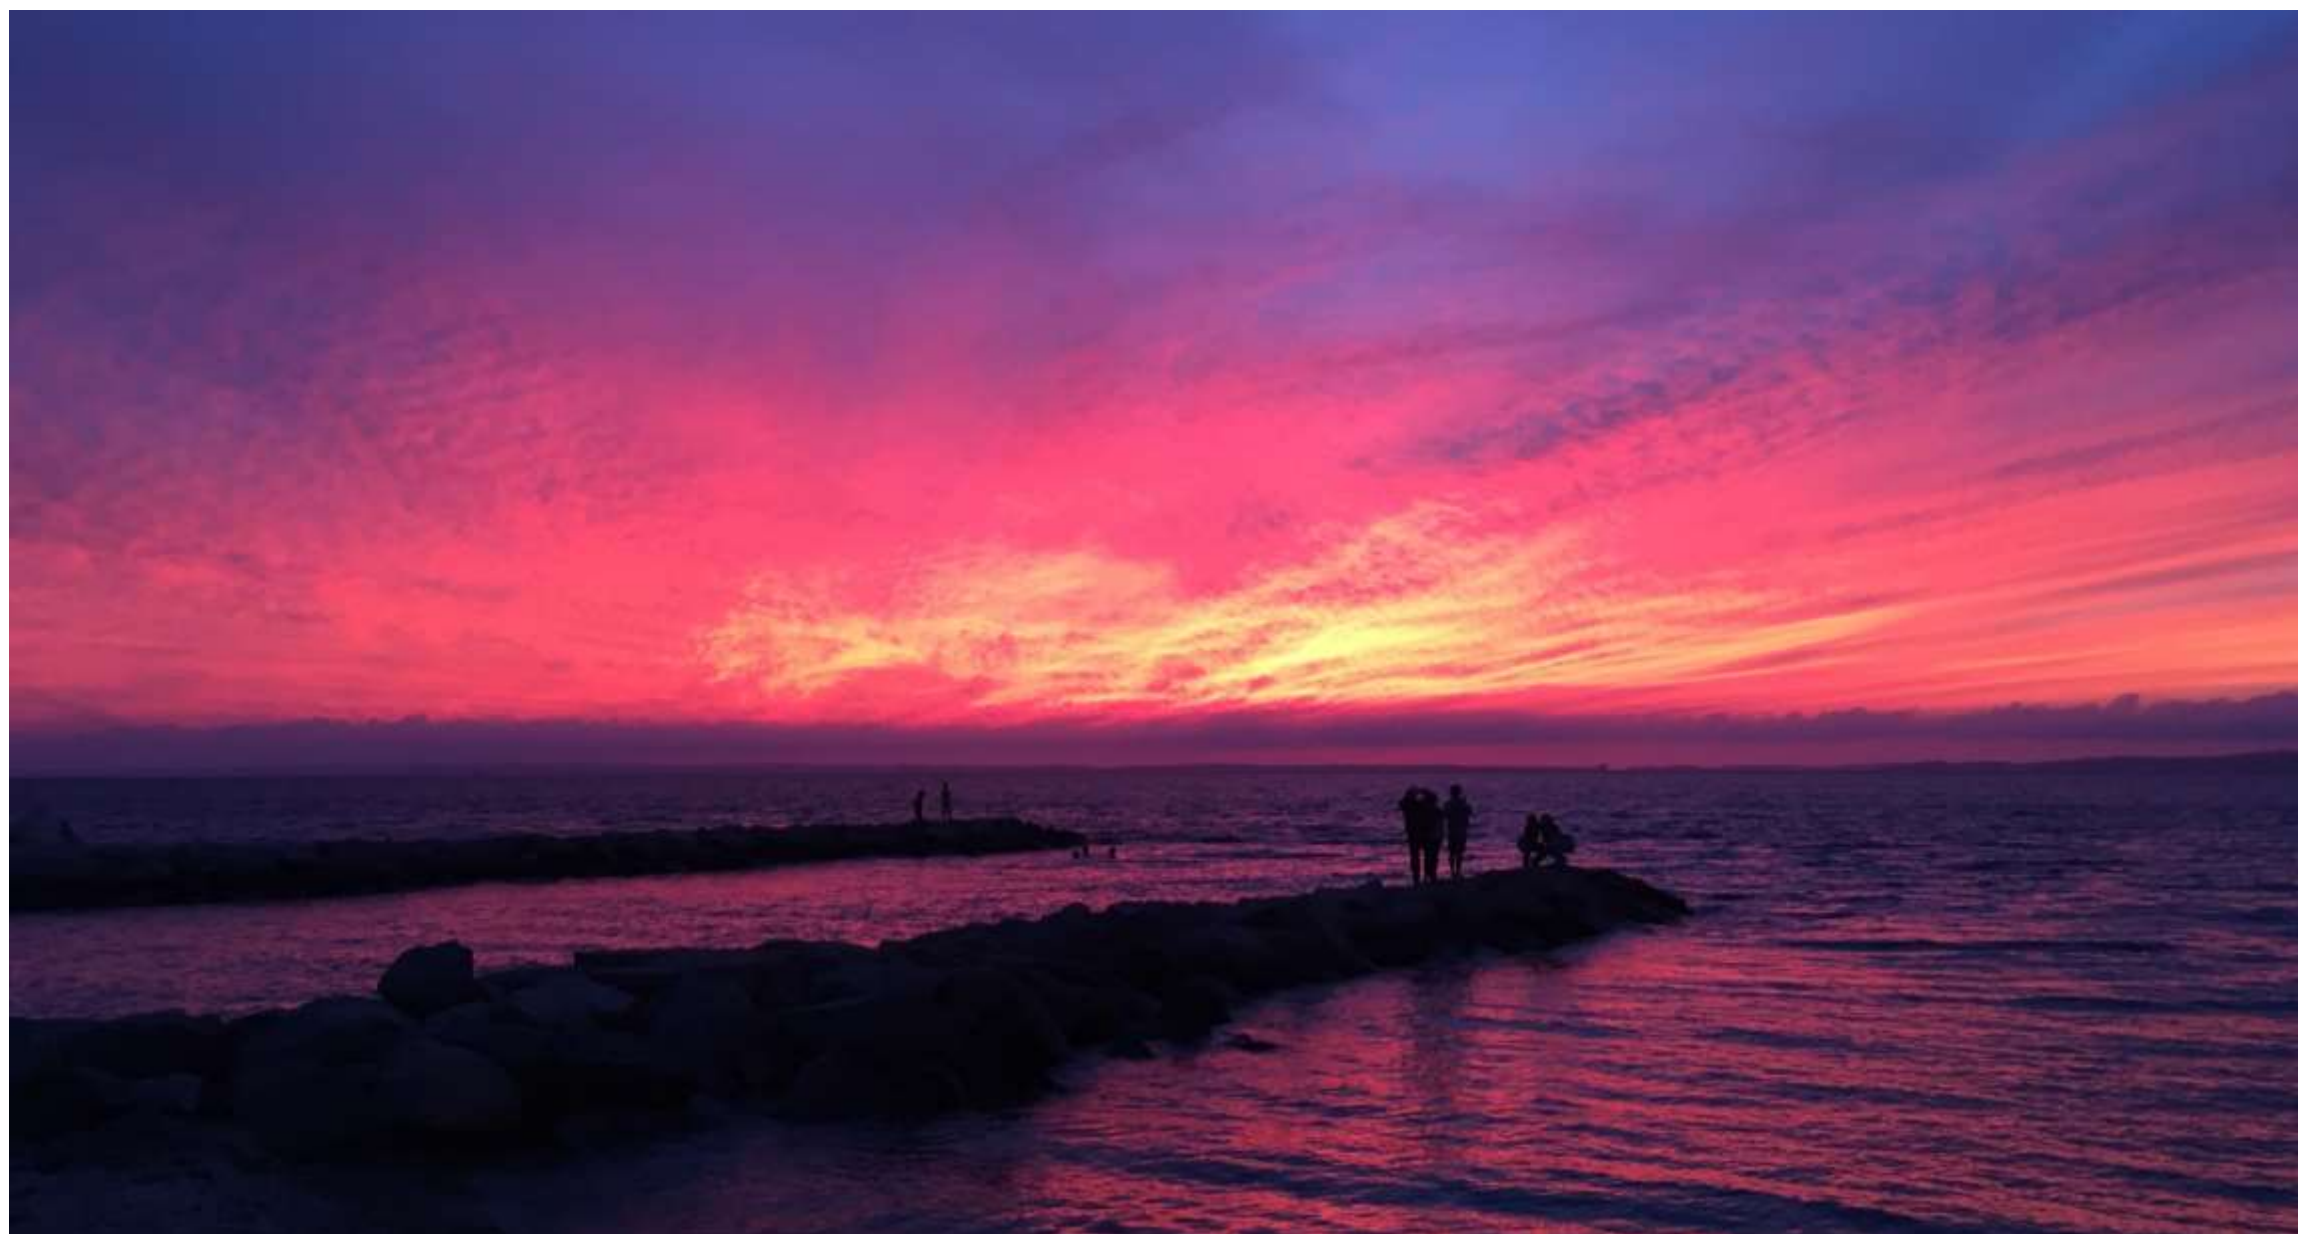

WEEDS

Hand picking crabgrass out of nursery

**Lots of colors - including white
clover flowers**

Thank-You
